UI/UX

- Icons

Icons

Font Awesome is the world's most popular icon library and includes font and SVG icons. The library includes over 1500+ carefully designed icons and is fully compatible with the Bootstrap. That's why we're using **Font Awesome** for all kind of marketing materials and UI/UX designs to create a continuity in visual communication.

Font Awesome: https://fontawesome.com/search?m=free

Font Awesome 5 has a PRO edition with 7842 icons, and a FREE edition with 1588 icons. This tutorial will concentrate on the FREE edition.

To use the Free **Font Awesome** 5 icons, you can choose to download the **Font Awesome** library, or you can sign up for an account at Font Awesome, and get a code (called KIT CODE) to use when you add **Font Awesome** to your web page.

We prefer the KIT CODE approach. Once you get the code you can start using **Font Awesome** on your web pages by including only one line of HTML code:

```
<script src="https://kit.fontawesome.com/yourcode.js" crossorigin="anonymous"></script>
```

We got the code a076d05399 and by inserting the script tag, with the code, we can start using **Font Awesome**:

```
<!DOCTYPE html>
<html>
 <head>
  <script src="https://kit.fontawesome.com/a076d05399.js" crossorigin="anonymous"></script>
 </head>
 <body>
  <i class="fa-solid fa-users"></i>
 </body>
</html>
```
